Collaborative approach to Ebola preparedness

As our nation's strategy to address the Ebola virus continues to evolve, hospitals and their partners in nursing and medicine are coming together to emphasize that a solution-oriented, collaborative approach to Ebola preparedness is essential to effectively manage care of Ebola patients in the U.S.

Sheraton Philadelphia Downtown
Philadelphia, PA

Group survey

The Geropsych Focus Group would be delighted to have your participation in a gerontological advanced practice nurse needs assessment survey. The survey results will be used to provide information so we can better understand the educational needs of GAPNA members working with older adults that have mental health problems. The 5 minute survey is voluntary and anonymous, and we appreciate your time and effort in assisting us in meeting the needs of the GAPNA membership.
