Researchers at Mainz University Explore New Approach for Treating Alzheimer's Disease

The disease is already one of the most common health problems in the elderly, which is why experts predict that the numbers of people affected will increase over time. Researchers at the Department of Psychiatry and Psychotherapy of the University Medical Center of Johannes Gutenberg University Mainz (JGU) have recently gained new insights into how it may in the future be possible to treat patients with the currently most common form of dementia, Alzheimer's Disease.

Geriatric Nursing Journal Submission Opportunity

Consider submitting your manuscripts on innovative research, clinical work, and projects relevant to the care of older adults to Geriatric Nursing. Reasons to submit to Geriatric Nursing:

- Impact Factor ranked specialty nursing journal
- Average first manuscript decision response time of 4 weeks
- Opportunity to be recognized in your area of specialization

Geriatric Nursing is disseminated widely to multiple association members including members of the Gerontological Advanced Practice Nurses Association, the National Gerontological Nurses Association, the American Assisted Living Nurses Association, NICHE, and the nursing members of the American Geriatrics Society. We invite and encourage Doctor of Nursing Practice work, publications from dissertations, and those engaged in ongoing research activities/advanced clinical work.

Submit Your Manuscript
