Dementia Symptoms: Warning Signs vs Normal Aging

What’s normal and what’s dementia? Symptoms can tip you off as to whether a patient may be experiencing early dementia signs. Read more below.
**Keeping Lonely Seniors Company Can Help Keep them Healthy**

Research shows older adults who feel lonely are at greater risk of memory loss, strokes, heart disease and high blood pressure. The health threat is similar to that of smoking 15 cigarettes a day, according to AARP. Read more below.

**NEW APRN Specialty Certification**

“The purpose of the certification is to better identify APRNs who are most qualified and experienced in managing patient care,” according to GAPNA President Katherine Abraham Evans, DNP, FNP-C, GNP-BC, ACHPN, FAANP. Read more below!

**Foundation Events at the Annual Conference**

Come support the GAPNA Foundation in Nashville and take part in some fun-filled events with your colleagues.
