

January 19, 2022

The Honorable Charles E. Schumer
Senate Majority Leader
United States Senate
S-221, US Capitol
Washington, DC 20510

The Honorable Mitch McConnell
Senate Minority Leader
United States Senate
S-230, US Capitol
Washington, DC 20510

Dear Leader Schumer and Leader McConnell:

As you work to advance sound policies within the Build Back Better Act that support our current and future nursing workforce, 57 undersigned organizations representing the Nursing Community Coalition (NCC), strongly urge you to include and pass the below priorities, including:

- **At least \$500 million to Support Nursing Education Pathways:** This investment, similar to the Future Advancement of Academic Nursing (FAAN) Act, supports the needs of nursing students, helps retain and hire diverse faculty, modernizes nursing education infrastructure, and creates and expands clinical education opportunities. These efforts are essential and will help prepare nursing students as they transition from the classroom to the frontlines in communities across the country.
- **\$500 million for the Nurse Corps:** These resources would help support scholarships and loan repayment for nurses and Advanced Practice Registered Nurses (APRNs),¹ who work in areas that need them the most.
- **Include major provisions of the Momnibus Act, such as:**
 - \$170 million to grow and diversify the nursing workforce in maternal and perinatal health;
 - \$100 million in Maternal Mental Health Equity grant programs;
 - \$85 million in funding for education and training at health professions schools to identify and address health risks associated with climate changes, including for pregnant, lactating, postpartum or individuals who are looking to become pregnant;
 - \$50 million in funding for antidiscrimination and bias training; and millions for other programs including promoting equity in maternal health outcomes through digital tools.

The NCC is a cross section of education, practice, research, and regulation within the nursing profession representing Registered Nurses (RNs), APRNs, nurse leaders, students, faculty, and

¹ APRNs include certified nurse-midwives (CNMs), certified registered nurse anesthetists (CRNAs), clinical nurse specialists (CNSs) and nurse practitioners (NPs).

researchers who are foundational to the health of the nation. Our members care for patients in all communities, including rural and underserved areas, are at the frontlines of public health challenges, and lead the way to ensure today's science translates to tomorrow's cures.

We appreciate your recognition of how vital our nursing students, nurses, and APRNs are to the fabric of America's health care system. As you consider a path forward, it is essential that resources for nursing education, research, and the workforce are included. Therefore, we urge the Senate to incorporate these shared priorities in any final bill. If the Nursing Community Coalition can be of any assistance to you or your staff, please do not hesitate to contact the coalition's Executive Director, Rachel Stevenson, at rstevenson@thenursingcommunity.org or at 202-463-6930, ext. 271.

Sincerely,
