The Honorable Fred Upton Chairman House Energy & Commerce Committee 2125 Rayburn House Office Building Washington, DC 20515 The Honorable Henry Waxman Ranking Member House Energy & Commerce Committee 2125 Rayburn House Office Building Washington, DC 20515

Dear Chairman Upton and Ranking Member Waxman:

On behalf of the 40 undersigned organizations representing the Nursing Community, we respectfully request that you oppose the Protect Patient Access to Quality Health Professionals Act of 2013 (H.R. 2817). Collectively, the Nursing Community represents nearly one million registered nurses, advanced practice registered nurses (APRNs), nurse executives, nursing students, nursing faculty, and nurse researchers. Our organizations are committed to improving the health and health care of our nation by collaborating to support sound policy decisions. This legislation, which would repeal Section 2706 of the Public Health Service Act, "Non-Discrimination in Health Care," 42 USC §300gg-5, would impact the nation's efforts to promote high quality, cost-effective care.

We firmly believe that Section 2706 – effective January 1, 2014 – protects patient safety, promotes competition in the healthcare marketplace, and provides patients the opportunity to choose which provider is best for them and their families. This provision is designed to ensure that health plans do not discriminate against qualified licensed providers, including APRNs, and clearly respects state scope of practice laws. H.R. 2817 would allow this discrimination, based solely on licensure, to continue to occur. If enacted, this bill would drive up healthcare costs by limiting competition.

Our organizations, representing a diverse range of registered nurses and APRNs, urge you to oppose this legislation and work to ensure it is not passed. If our organizations can be of any assistance or answer any questions, please contact Frank Purcell at 202-741-9080, fpurcell@aanadc.com, or Suzanne Miyamoto 202-463-6930, ext. 247, smiyamoto@aacn.nche.edu.
